

FEM Awards

The annual Federated Employers Mutual (FEM) awards ceremony took place in Sandton in mid-September. These important Awards of Excellence give recognition to policy holding companies who have performed well in terms of health and safety. "Zero accidents should be every company's goal," said Rob Spreadbury, FEM's executive underwriting officer in his opening address. "Safety is a value, not a goal or a priority. Safety is embedded in your DNA. You are the ones that are taking time to educate the employee," he said.
